

Custom Design Templates Available

Manufactured to individual design specifications to reduce or eliminate costly repetitive drafting time. Incorporating a logo and/or any special design into a custom template is not only functional but can also serve as a highly effective promotional tool.

Custom templates are individually milled for accuracy and checked to precision standards. To obtain a price quotation, please provide the following:

- Number of pieces required (minimum order: 144 pieces/design)
- Thickness and color of material (if other than the standard .030" green tint)
- Sketch or drawing of the template, clearly showing areas to be cut and any printing desired.
- Complete camera-ready art is required for production, or artwork can be created for an additional charge.
